## Summary

---

Enthusiastic entry-level Java Full Stack Developer with a strong passion for technology and innovation. Adept at applying technical skills to create impactful and efficient solutions. Committed to overcoming challenges and continuously enhancing expertise in emerging technologies. Seeking an opportunity to contribute to a dynamic team and support its growth through dedicated development efforts.

## Projects

---

### **YOLO - EXTRACT for Aircraft Object Detection**

Improved YOLOv5 for detecting aircraft in remote sensing images contributing to more accurate object detection models.

### **Forecasting Crop Yield Using Machine Learning**

Applied machine learning techniques to forecast crop yield, aiming to improve agricultural productivity.

### **Wireless Remote-Controlled Car**

It uses simple Integrated Circuits (IC) and it is controlled wirelessly by a remote controller.

## Education

---

### **Bachelor of Technology (B.Tech)- Computer science engineering**

Joginpally BR Engineering college

### **Diploma - Electronics and Communication Engineering**

TRR College of Technology

### **10th - SSC**

Dilsukhnagar public school

## Certificates

---

**Certificate for participating in the Edu-Versity's Industrial Internship Program in Full Stack Web Development.** *Edu-versity*

**Hacker Rank SQL(Basic) certification, successfully cleared the assessment for SQL skills**

*Hacker Rank*

**Certified for completing all the lessons and projects of python by code chef**

*code chef*

**Completed the Industrial Training in the area of PCB designing (Schematic), soldering and Testing**

*JB OHM micro technologies*

**Participated in training and zonal championship event held at TRR college** *IBTC*

**Walmart USA Advanced Software Engineering Virtual Experience Program on Forage - July 2024** *Walmart*

**Certificate of Participation in Tata Crucible Campus Quiz 2023 of Tata Crucible Campus Quiz**

**Certificate of Participation in The ReneVerse Borderless Gaming Hackathon**

## Skills

---

- HTML
- CSS
- Core java
- SQL
- Python (Basics)
